

Community Feedback Summary from March 24, 2009 Henrico High School Community Feedback Session

Subdivision	Address	Choice	Pairing 1 Comments	Pairing 2 Comments
Ashbury at Stoneleigh	8625 Ashbury Hills Terrace	Redistricting Pairing # 2		Chamberlayne Rd (301) should serve as the natural boundary line for Brookland Middle and Henrico High. The residents of Ashbury at Stoneleigh are in consensus with pairing # 2.
Chamberlayne Heights	6007 Chamberlayne Rd	Neither	Do not agree. Want student to remain at Henrico HS.	Do not agree. Want student to remain at Henrico HS.
Chickahominy Bluffs	104 Chickahominy Bluffs Rd	Redistricting Pairing # 1	Neighborhoods between RT 1 (Brook Rd) and the chickahominy River are together for elementary and high schools, but separated for middle school, Could they be kept together all the way through? The North Chamberlayne Civic Association serves all these neighborhoods.	Neighborhoods between RT 1 (Brook Rd) and the chickahominy River are together for elementary and high schools, but separated for middle school, Could they be kept together all the way through? The North Chamberlayne Civic Association serves all these neighborhoods.
Confederate Heights	405 Grayson Ave	Neither	They are both just about the same. We need the new high school now because Henrico is already overcrowded. The children that don't want an education, put them out.	They are both just about the same. We need the new high school now because Henrico is already overcrowded. The children that don't want an education, put them out.
Confederate Heights		Both	My concern is that Henrico High School will lose a lot of Chamberlayne Farms.	
East Highland Park	1515 Carter St	Neither	Wilder has higher capacity of all middle schools through 2013. This splits the Chamberlayne Farms and Chamberlayne Heights community. It makes sense to incorporate the Chamberlayne community along Brook Road and Parham and delete the Ratcliffe community that borders Mechanicsville Pike which is a natural boundary.	Wilder capacity numbers are better, however the border along Chamberlayne split the Chamberlayne Farms and Chamberlayne Heights community. It makes sense to incorporate the Chamberlayne community along Brook Road and Parham and delete the Ratcliffe community that borders Mechanicsville Pike which is a natural boundary.
Fordham Village	2902 Muncle Rd	Neither	When this school opens, Henrico, HSHS, and Varina will still be at or near capacity. How does this help?	My thoughts are the same with this plan. How does this plan relieve the overburdening of the school dollars for the Eastern district schools?
Fordham Village	3003 Trio Street	Redistricting Pairing # 1	The redistricting disparity remains almost the same 2009-2010. By 2011 my kids will move on to high school which by this time zoning again will take place.	
Glen Lea	4010 Austin Ave		Not familiar enough with district. Plans do not appear to effect my location one way or the other.	
Huntwood	3229 Arthurwood Place	Redistricting Pairing # 1	The redistricting in the case has slightly lowered membership.	I see that the redistricting starting in 2010 has the total membership rising. I understand that Fairfield will be starting an IB program in 2010, but starting at the 6th grade level. I don't understand why not start a 6,7, and 8th grade program so that the kids that have been applying to Moody with limited space are also able to benefit and demonstrate their abilities. the 7th and 8th grade students have also been working hard to keep their grades up and above but having to attend this school because of their neighborhood they are not subject to the benefits of working hard.
Magnolia Ridge	10601 Spurlock Ct.	Neither	My concern is truly with both options - with respect to moving the Central Gardens neighborhood to Henrico HS. This move will create a challenge with different groups of young people bringing opposing neighborhood affiliations to the same high school.	
Ratcliffe	417 Hollybrook Ridge Lane	Neither	Both pairings pull Central Garden kids from HSHS to Henrico. Please talk with the school resource officers. Henrico will have more discipline issues because of neighborhood "gangs".	Both pairings pull Central Garden kids from HSHS to Henrico. Please talk with the school resource officers. Henrico will have more discipline issues because of neighborhood "gangs".
Sterling Forest	8005 Arbor Glen Place	Redistricting Pairing # 1	Pairing # 1 seems fine for the Wilkinson Rd area. I'm curious about how this transition would take place for rising 09-10 freshman.	
		Neither	Placing to much problems that already is going on in Central Gardens to influence with Ratcliffe area in one school.
