

**Redistricting Project for 2010
Full Committee Meeting Minutes
December 18, 2008**

5:30pm – 6:00pm. - Committee members arrived.

6:00pm – 6:20pm. – Lee Higgenbotham, Elementary Sub-Committee Chair, explained that this committee made minor adjustments to the 4 options to help bring each potential boundary out of the red in terms of projected capacity.

Next, Diane Seargent, Middle School Sub-Committee Chair, explained that there will be 5 options in extreme rough draft form being presented at the community forums in January.

Jeff Franz, High School Sub-Committee Chair, explained that the High School Sub-Committee will bring 3 options to the community forums. Jeff explained that the group's focus in this previous meeting was to bring each boundary's projected enrollment out of the red.

6:20pm – 7:10pm. - Matt Cropper from Cropper GIS asked that committee members arrive at the community forums a half hour early. Matt will also forward the email that was sent to the Feedback group to the full redistricting committee. Matt reviewed the structure of the community input meetings.

Matt went over a new document which shows the dates and objectives for each future meeting series. This document was created to help provide clarity in the redistricting process. Cropper GIS will email this new document to the full committee.

Cropper GIS and HCPS will also draft a Frequently Asked Questions document for committee members to help with any questions that may be asked during the community forums. Committee members are welcome to send Cropper GIS and HCPS any questions they would like added to this document.

The community feedback questionnaires will have two questions added asking "What is your zone school?" and "What neighborhood/area do you live in?"

Cropper GIS will update the redistricting process scheduling document with an objective to review the Feedback group information in the January 20-22 meetings. Committee members are encouraged to forward any emails of concern to HCPS and Cropper GIS rather than reply to these.

Elementary/Feeder Pattern Subcommittee Representatives 12/18/08
