2009-10 SCHOOL PROFILE

SCHOOL AND COMMUNITY:

Henrico High School is one of nine high schools in Henrico County. The school, which is centrally located in the county, serves about 2,000 students. The faculty consists of approximately 130 teachers. Vocational opportunities are available for students at two technical centers. Henrico High School is the only high school with two specialty centers—the Center for the Arts, which offers instruction in dance, theatre, visual arts, and vocal musical theatre; and The International Baccalaureate Program (IB). The IB Program at Henrico High School includes the International Baccalaureate Middle Years Program (IBMYP) for students in grades 9 and 10, and the International Baccalaureate Diploma Program for students in grades 11 and 12. Tenth grade IB students pursue the IBMYP Certificate from the International Baccalaureate Organization. Successful completion of the IB Diploma in grade 12 earns students advanced placement status at many colleges and universities throughout the world.

WP	=	Withdrawn Passing	=	0 Grade Points and Not Counted in Rank

CLASS RANKING:

Class rank and G.P.A. (Grade Point Average) are determined by the levels of courses taken and the grades earned in those courses. Grades earned in courses prior to ninth grade that were awarded a high school credit will not be counted as part of the high school cumulative grade-point average. The initial class ranking is computed at the end of grade 11 by averaging the final averages of grades 9, 10, and 11. The final ranking is computed mid year of the 12th grade and is based on final averages of grades 9, 10, 11 and the first semester averages of grade 12.

Students who are earning either a Standard or an Advanced Studies Diploma are included in class rank. Students earning a Modified Standard or Special Diploma are excluded from class rank.

Students earning weighted credit will have 0.17 added to their final G.P.A. for each Honors/AP course taken and passed. See the following formula:

$$\text{Cumulative GPA} = \frac{\text{Total Grade Points} + (.17 \times \text{Honors/AP Courses Passed})}{\text{Total Credits Attempted} \times \text{Number of Years}}$$
