

Varina High School Students,

Want a great opportunity to earn community service hours? Then, volunteer your time to tutoring. Varina, Ward, Mehfoud, and Baker Elementary and Rolfe and Elko Middle would appreciate your assistance with their young students in mastering the skills for their grade level. In addition to building the friendship and bond that develops between the tutor and the tutee. It is a great way to help the future of Varina High School to learn the study skills that they will need as they enter a new level of school.

The tutoring will vary for the grade level that you are working with, and the needs of that particular student. While some students need help in reading and math, others may need help with science and social studies. Some of the other areas that students may need help with are vocabulary and spelling words.

It is an easy process to become a part of this wonderful opportunity. All you need to do is stop by the school counseling department to sign up. There is a clipboard in the waiting room with a sign up sheet located on it. Just leave me your name and if you prefer to tutor in the mornings, or if you have work release if you are able to tutor in the afternoon. If you have any questions please stop by and see Ms. Colegate in the School Counseling Office.

This is a great opportunity to help others, while feeling good about what you are doing.
